

Sparkman High School Band Booster Club Christmas Tree Fundraising Program

The Sparkman High School Band Booster Club is selling North Carolina Fraser Fir Christmas trees as a band fundraiser for the 2017-2018 School Year. The Christmas tree selling season is 10 October - 2 November 2017. The Christmas trees will be delivered on Saturday November 25th, just in time for the Holiday Season. For an additional charge of \$10.00, the Band Boosters will deliver your Christmas tree to your home.

Norton Creek Farms

In the spring of 1976, Norton Creek Farms planted their first Fraser Fir Christmas trees on two acres near Cashiers, NC. Their plan was to grow perfect Christmas trees for friends and family. Now, forty-one years later, they have grown into a full tree farm, which changed their customer base somewhat, but not their committment to growing and delivering premium trees.

Quality

Norton Creek Farm's trees are well-maintained in order to ensure the best density, color, needle set, and longevity possible. Norton Creek Farms grade ensures the trees are sized from trunk to swirl consistently. Norton Creek Farms manages their cutting schedule so that trees are cut within 5 days of the shipping date. Norton Creek Farms is the #1 Preminum Tree Farm in the Southeast!
