Clearing the Floor (after end of show)

- We must clear ALL equipment to the LEFT (side 1) side of the timeline for our interval time to stop.
- After we cross the timeline, ***we still must move fast*** and make forward progress back up the tunnel to the arena exit.
- Battery will be putting drums in the back hallway just inside floor exit curtain, then coming back in to fold and “snake” the floor up the tunnel all the way back outside the arena exit. Then, run down and get drums/props/etc.
- Due to battery snaking the floor out, ***we must have all available parents and staff*** to help get equipment back up the tunnel and out of the arena.
- See UD tunnel/hallway photos/specs [HERE](#).
